Profile

Passionate Full Stack Developer with hands-on experience in building dynamic and responsive web applications. Currently enhancing my skills with a focus on the MERN stack (MongoDB, Express.js, React.js, Node.js). Proficient in HTML5, CSS3, JavaScript, and back-end technologies. Seeking opportunities to contribute to impactful projects and advance my development career.

Experience

Full Stack Developer Intern | Edureka | January 2024 - May 2024

- Learned and applied core front-end and back-end development principles.
- Developed RESTful APIs using Node.js and Express.js.
- Created responsive interfaces using React.js

Projects

Chat application

- Designed and developed a real-time chat application using MERN stack (MongoDB, Express, React, Node.js)
- Implemented user authentication, messaging, and friend management features
- Built a responsive and interactive chat interface with real-time messaging and chat history
- Developed a RESTful API for seamless data exchange between clients and servers
- Demonstrated expertise in MERN technology, JavaScript, and front-end development

Personal Portfolio Website

A React-based portfolio website showcasing my skills and experience.

- Built with React and Material-UI for a responsive design
- Implemented Material-UI icons for enhanced UI
- Featured projects section and contact form with email integration
- Demonstrates expertise in React, Material-UI, and front-end development

Skills: React, Material-UI, JavaScript, HTML, CSS, UI/UX design

Certifications

Web Development Certification

Internshala | Sep 2022 - Dec 2022

- Comprehensive training on HTML, CSS, JavaScript, and introductory back-end development.
